#### Settlement

# NRDA Settlement with Dow

- Will restore and protect about 8,000 acres and improve fish populations in the rivers and bay
- Will provide at least
  \$5M for future projects
  with public input
- Will provide up to \$10M for long-term stewardship

#### Settlement

# Request for Pre-Proposals

- Restoration projects in Saginaw Bay Watershed
- Online application, Nov 2
  - Dec 31
  - \$5.75 M total available from Dow and GM settlements
- Criteria in Restoration
  Plan

www.fws.gov/midwest/es/ec/nrda/TittabawasseeRiverNRDA/restoration\_plan.html

# Restoration Criteria: Categories of Criteria

- Eligibility
- •Focus
- •Implementability
- •Benefits

## Restoration Criteria: Eligibility

- Complies with applicable federal, state, local, and tribal laws and regulations
- Benefits natural resources injured by hazardous substances
- ols technically feasible

YES / NO

### Restoration Criteria: Focus

- Restores, rehabilitates, replaces, or acquires the equivalent of injured natural resources
- Addresses natural resources that are trustee priorities
- Targets resources or services that will require a long time to recover naturally

## Restoration Criteria: Implementation

- Cost effective
- Benefits can be measured
- Uses methods known to be successful
- Considers response actions
- If the project involves source control, it reduces exposure of natural resources
- Is consistent with regional planning

### Restoration Criteria: Benefits

- Provides the greatest scope of benefits to the largest area or population
- Provides benefits not being provided by other programs
- Aims to achieve environmental fairness
- Maximizes the time over which benefits accrue

The Trustees have published general screening and project evaluation criteria in their restoration plans, and these criteria are very similar:

- <u>Tittabawassee River System Natural Resource Damage</u>
  <u>Assessment Restoration Plan</u>, with criteria described in <u>Section 5.1</u>
- Saginaw River and Bay Restoration Plan, with criteria described in Chapter 3
